

HARVARD
Department of Stem Cell
and Regenerative Biology

Stem Cells and Regenerative Medicine Seminar Series
Presents

Intradepartmental Seminar
December 4, 2020
12:00-1:00PM

<https://harvard.zoom.us/j/97349831001?pwd=NENWZ3dSV3d5Q113b2dsU2QwLzlvQT09>
Password: 462043

Ersin Akinci

(Post-doctoral Fellow, Sherwood Lab, BWH, HMS)

“A high-throughput screening platform (SPARq) to characterize human transcriptional activators and to improve CRISPR gene activation”

Sneha Dutta

(Graduate Student, Mair Lab, HSPH)

“Novel molecular mechanisms linking RNA splicing and longevity”

Moderator: Jason Buenrostro, Assistant Professor of Stem Cell and Regenerative Biology

Department of Stem Cell and Regenerative Biology
7 Divinity Avenue
Cambridge, MA 02138
