

CALL FOR APPLICATIONS - 2021

BARRY FAMILY HSCI INNOVATION AWARD FOR EARLY INVESTIGATORS

AWARD AMOUNT

\$250,000.00

POSTED DATE

Friday, December 18, 2020

DEADLINE FOR LETTER OF INTENT

Friday, January 15, 2021

NOTIFICATION OF INVITATION TO SUBMIT APPLICATION

Friday, January 22, 2021

DEADLINE FOR FULL APPLICATION (IF INVITED)

Friday, February 26, 2021

PRESENTATION TO SELECTION COMMITTEE (IF INVITED)

Wednesday, March 17, 2021

ANTICIPATED AWARD DATE

Monday, May 24, 2021

HSCI is pleased to announce the second call for proposals for its annual award for innovation in the field of stem cell science and regenerative medicine. We are soliciting applications from early career investigators for the annual Barry Family HSCI Innovation Award, to be used for exploring the basic biology and translational potential of stem cell-based science. The goal of this award is to enable **bold innovation** that has the potential to **transform the field of stem cell research** and **advance the understanding and use of stem cells in the development of therapies** (any modality) for human disease.

The award provides \$250,000 (total cost) and is open to any investigator working in an HSCI-affiliated institution (i.e., Harvard school or affiliated hospital).

To be eligible, candidates must satisfy all of the following criteria:

- Have completed one or more of the following degrees: MD, PhD, DPhil
- Be within 10 years of starting a faculty (professorship) or comparable position as of January 1, 2021
- Possess PI rights at their home institution
- Have demonstrated the ability to supervise staff and research

- Possess a track record of innovative and impactful research discoveries
- Exhibit strong interest in or commitment to the translation of basic science to a commercial or clinical setting

This prize addresses two important goals for HSCI:

- stimulating highly innovative research that has the potential for significant impact, both in research and in the clinic, and
- supporting promising early-stage investigators

HSCI is looking for **bold new approaches** that can advance the field and could result in new medicines or therapies.

Like NIH New Innovator Awards, this prize is designed specifically to recognize **unusually creative scientists with highly innovative research ideas** at an early stage of their career. **The emphasis is on innovation and impact.** Key review criteria will include the track record of the nominee and the transformational potential of the new or expanded work being proposed. Preliminary data generated by past or on-going work are not required but may be included. No detailed annual budget is requested at the time of application submission.

Nominations will be decided upon by the Faculty Directors and Executive Director of HSCI based upon the advice and input of the HSCI Executive Committee. One (1) award will be made each year. Unsuccessful applicants may apply again in subsequent years. Successful applicants may not re-apply in subsequent years.

PROCESS AND TIMELINE

Friday, January 15, 2021

One-page Letter of Intent, to include a brief description of the proposed project (<500 words), the applicant's NIH Biosketch, and the names and email addresses of 2 recommenders (letters of reference are not required at the LOI stage) should be submitted electronically to Robert Perez, HSCI Grants Officer at robert.perez@harvard.edu by Friday, January 15, 2021 at midnight.

Friday, January 22, 2021

HSCI will notify applicants as to whether or not they have been selected to submit a full application. Notification will be sent via email by 5:00 p.m. (EST).

Friday, February 26, 2021

Selected applicants submit an application of not more than 3 pages, specifically addressing the goals

of this award, plus the applicant's biosketch, by 5:00 p.m. (EST). Submission is via email to Robert Perez at robert_perez@harvard.edu. HSCI will contact recommenders directly for confidential submission of letters of support.

Friday, March 12, 2021

Email notification by 5:00 p.m. (EST) of three (3) finalists selected and invited to present to the HSCI Executive Committee at their meeting on Wednesday, March 17, 2021 via Zoom.

Wednesday, March 17, 2021

Selected finalists present to the HSCI Executive Committee at their meeting on Wednesday, March 17, 2021 via Zoom. Individual presentations will be scheduled at either 8:30, 9:00, or 9:30 a.m., and candidates must be available to present on this day in order to be considered for the award.

Friday, April 30, 2021

Selected candidate will be notified of his/her designation.

Thursday, May 20, 2021

Presentation of the inaugural Barry Family HSCI Innovation Award for Early Investigators will be made at the 16th Annual HSCI Retreat via Zoom.

Monday, May 24, 2021

Anticipated commencement of award.

INQUIRIES

Questions about the Barry Family HSCI Innovation Award for Early Investigators may be addressed to Robert Perez, HSCI Grants Officer, at robert_perez@harvard.edu.

Thank you for your interest in HSCI.
