

# Announcing the Spring 2021 series of:

## Current Topics in Bioinformatics

presented by the

### Harvard Chan Bioinformatics Core

#### Workshop Series Details:

- **Hands-on** workshops on bioinformatics topics & related skills
- **Once a month for 2-3 hours**
- **First-come-first-served**, no registration required
- **Free and open** to everyone at Harvard University and its affiliates

#### Spring 2021 schedule:

Topic	Date	Time	Registration	Prereqs
Introduction to R	01/27/2021	1 – 4pm	<a href="#">Sign up!</a>	None
Visualizations with <b>ggplot2</b> and <b>advanced plotting methods</b> (volcano plots, heatmaps, etc.)	02/24/2021	1 – 4pm	<a href="#">Sign up!</a>	Beginner R or Intro R workshop
<b>Gene annotations</b> and <b>functional analysis</b> of gene lists	03/31/2021	1 – 4pm	<a href="#">Sign up!</a>	Beginner R or Intro R workshop
Reproducible research using R (Rmarkdown: report generation)	04/28/2021	1 – 4pm	<a href="#">Sign up!</a>	Beginner R or Intro R workshop
Interactive Data Visualization with <b>RShiny</b>	05/26/2021	1 – 4pm	<a href="#">Sign up!</a>	Beginner R or Intro R workshop
