

Harvard Chan Bioinformatics Core presents:

Introduction to R

For all members of the Harvard Stem Cell Institute (HSCI)

This 2-day workshop will introduce participants to the basics of using R, a simple programming environment that enables the effective handling of data, while providing excellent graphical support.

Participants will learn how to use R for:

- *exploring basic data structures*
- *inspecting and manipulating data*
- *making simple plots to visualize data*
- *making publication-quality plots with ggplot2*

Prior experience with R or programming **not required**

January 24th & 25th, 2017
(9am - 4pm)

More information & registration link at <http://tinyurl.com/R-hsci-info>

Registration fee: \$75*

**Includes workshop on differential gene expression analysis on Feb. 15th*

Workshop Location: Tosteson Medical Education Center (TMEC), LMA

Sponsored by the *Harvard Stem Cell Institute (HSCI)*
